

Transparent and predictable pricing

Deciding on a cloud provider is hard enough – figuring out pricing should be easy.

Our comprehensive approach to savings

Compute

Powerful Droplets are available in many configurations to meet the CPU and memory needs of your application. All are priced to save.

Storage

Each Droplet comes with significant local SSD storage, and it's easy to attach more with cost effective block storage.

Bandwidth

Each Droplet includes significant amounts of bandwidth that you can pool across your account. Any overages are priced at low and consistent rates across the globe.

Build your Droplet
